

Features

- High transmissivity polycarbonate material
- UL94V-0 compliance
- · ESD protection (circuit isolation from front panel)
- · Wide viewing angle
- · Arrays reduce insertion costs
- · Secures to PCB by snap-fit

LED Data

For absolute maximum ratings and other electrical and optical data on the recommended LEDs, refer to LED data sheets.

Dialight Optopipe Light Pipe Description

Each element of this 4 element light pipe has a slightly different length. The light pipe mounts on the PCB by means of a bifurcated mounting pin. The light emitting surfaces are textured to diffuse the light passing through them. The recommended light sources are Dialight's 597 Series PLCC-2 or PLCC-4 type SMT LEDs. The SMT LEDs are mounted in a straight line under the rear of the part on a 10.16mm pitch. The light pipe material is water clear transmissive polycarbonate rated UL94-V0, and has a 35% oxygen index.

Dialight can provide custom Optopipe[™] solutions for your applications.

Operating/Storage Temperature

-30°C to +100°C
